

COLIKAT RAPID®

Compliance and quality control

- The COLIKAT RAPID® test system is fully compliant to EN ISO 9308-2
- Directly applicable for compliance testing in many countries by direct reference of local legislation to EN ISO 9308-2 (for further explanation see colikat.com)
- Quality control according to EN ISO 11133 Sec. F and EN ISO 9308-2 in our EN ISO 17025 accredited laboratory

Product benefits

- Significantly higher recovery for the key target organism *Escherichia coli*
- 1:1 equivalent results regarding coliform bacteria
- The COLIKAT RAPID® reagent dissolves significantly faster in the sample
- No antifoam is needed for the majority of water samples
- Saves more than 80% volume of waste and storage area for the COLIKAT RAPID® reagent
- Manufactured and distributed by your reliable service partners Xebios Diagnostics GmbH and our local established and experienced distribution partners
